

WORKSHOP REACH REGULATION FOR DOWSTREAM USERS AND FORMULATORS OF CHEMICALS

Downstream Users of Chemicals including Formulators of Mixtures have continued challenges under the REACH Regulation to ensure compliance for raw materials purchased, safety data sheets and exposure scenarios, reporting to ECHA using IUCLID software and REACH-IT platform. With the Workshop by OnlyCoreChem your company will become also prepared to face inspections.

The first edition that took place in Lisbon March 2019 was sold out with 34 participants from 10 countries.

Benefit from the 20% promotional registration discount valid only until 6 May 2019.
