

REACH Only Representative services – gain full access to the EU market

Non-EU chemical manufacturers are not allowed to register directly their chemicals (substances as such or as part of mixtures) in the EU but REACH Regulation Article 8 allows to appoint a REACH Only Representative located in the EU to act on their behalf and fulfill the registration obligations covering EU importers and relieving them from registration obligations. This way non-EU chemical manufacturers increase their business opportunities getting full access to the European Union market.

ONLYCORECHEM with its registered office in the EU (Lisbon-Portugal) and a multidisciplinary team that includes expert Consultants on REACH Regulation with background in Chemistry, Toxicology, Ecotoxicology, Environment Health & Safety and deep experience working for more than 10 years both in the Chemical Industry and Consultancy supporting companies in the EU and non-EU Chemical Manufacturers located worldwide to successfully comply with REACH Regulation allowing access to the EU market expanding their businesses and achieving commercial advantage is the right partner to act as your REACH Only Representative.

If your company is considering entering the EU market for the first time or to change to a more reliable REACH Only Representative providing high quality services at a fair price and cost-effective solutions being always transparent since the first day do not hesitate to contact us and we will be pleased to guide you through the process.
